

Supported Headsets

Test specifications

Headsets are tested against latest firmware release version. Supported call control features may vary.

Minimum functionality for listing:

- Analog headsets: Audio
- Headsets with USB / EHS / Bluetooth: Audio + basic call control

Connection types

Desk phone: RJ cable or USB (if available), and Bluetooth (if built-in)

- M Series: 3.5mm jack
- M-SC Series: 2.5mm jack

- **Please be aware that you will need an [EHS adapter](#) for answering a call and hanging up directly on the **wireless headset**. You can find more Informations about the EHS here: [EHS - Electronic Hook Switch](#)**
- This of course does not apply to the DECT headset from Snom: **A170**. It has an EHS adapter integrated in the base of the charger /transmitter station.
