

Can I register a 3rd party DECT handset or repeater to a Snom M300,M700,M900 base station

Answer

No, M300,M700,M900 are designed to provide advanced mobility features (M700) like roaming and seamless handover. 3rd party DECT devices are not compatible with the Snom DECT solution.

[GAP Standard](#) is not supported by Snom's M-Series products. Therefore, the M-Series handsets cannot be registered to 3rd party DECT bases, either.
