**i** The **SCE certification** is offered in **two versions**, with a focus on **DECT solutions** or with a focus on **desk phones**.

However, the foundation of both courses is the same, namely the following courses:

- [SPT](#), Network - Basic, SIP - Basics, SIP - Advanced, VoIP - Basics, VoIP - Advanced, Network - Advanced

## Snom Certified Engineer (SCE) - Deskphone

The SCE certification has been offered by Snom for many years and is permanently adapted to the development of the technology. It is currently the highest award offered by Snom.

The goal of this in-depth technical course is to provide participants with all the skills necessary to design, deploy and manage VoIP solutions based on Snom IP phones and products. The course participants should have a solid knowledge of IP/SIP/VoIP and the training is ideal for support engineers or system administrators who want to learn more about Snom products.

**i** Dates and events on site can be found in the section below: [Classroom Training](#).

### Participants in this course will learn more about:

#### **i** SCE - Deskphone

- [SPT](#)
- Network - Basic
- SIP - Basics
- SIP - Advanced
- VoIP - Basics
- VoIP - Advanced
- Network - Advanced
- Deskphone: Connecting
- Deskphone: Advanced Features
- Deskphone: Provisioning
- Deskphone: XML Applications
- Deskphone: Security
- Deskphone: Troubleshooting

## SCE - Classroom training

This course is a two-day classroom course led by one of our experienced trainers.

 Requirements to be able to participate in a SCE training is the successful completion of the **following three basic courses**:

- [SPT](#)
- Network - Basic
- SIP - Basics

### Details:

- The registration process will be done via the communicated dates via Eventbrite. At the start of the course, you must have completed the three mandatory courses in order to participate in the course.
- The course content will be activated for you at the beginning of the course.
- Many courses include references to exercises in the SCE Exercise Manual.
- The **exercise manual** and the **SPLiT** exercise environment are available for download.
- For your support we have provided a Wireshark beginner course.
- **You have to pass two exams:**
  - The **theoretical exam** consists of **50 multiple choice questions**  
You will receive the result of the theoretical exam immediately.
  - And the **practical exam** includes **4 tasks**..  
You will receive the result of the practical exam a few days later together with the overall result.
- After passing the exam, the **badge** and the **certificate** will be made available to you in the **online** platform.

 You find the dates of our next SCE trainings on [our website](#).

## SCE - Online training - Starts on 01.03.2021

The SCE - Online Training covers the same scope as the corresponding classroom training.

 Requirements to be able to participate in a SCE training is the successful completion of the **following three basic courses**:

- [SPT](#)
- Network - Basic
- SIP - Basics

### Details:

- The registration process will be done via the communicated dates via Eventbrite. At the start of the course, you must have completed the three mandatory courses in order to participate in the course.
- You may view the course content at your own discretion for as long as you wish.
- Many courses include references to exercises in the SCE Exercise Manual.
- The **exercise manual** and the **SPLiT** exercise environment are available for download.
- For your support we have provided a Wireshark beginner course.
- **You have to pass two exams:**
  - The **theoretical exam** consists of **50 multiple choice questions**  
You will receive the result of the theoretical exam immediately.
  - And the **practical exam** includes **4 tasks**.  
You will receive the result of the practical exam a few days later together with the overall result.
- After passing the exam, the **badge** and the **certificate** will be made available to you in the **online** platform.

### Differences to classroom training:

- No hardware is issued to the course participants. The participants have to take care of this themselves in advance.
- There are no costs for travel and hotel.
- The course price is significantly lower.

---

## Snom Certified Engineer (SCE) - DECT
