

# Snom Certified Technician - SCT

## Index:

- [Snom Certified Technician](#)
  - [SCT - Deskphones](#)
  - [SCT - DECT](#)
- [Partner Informations](#)
  - [Overview over all achievable Badges](#)

**i** The **SCT certification** is offered in **two versions**, with a focus on **DECT solutions** or with a focus on **desk phones**.

However, the foundation of both courses is the same, namely the following courses:

- [SPT](#), Network - Basic, SIP - Basics, SIP - Advanced, VoIP - Basics, VoIP - Advanced, Network - Advanced

## Snom Certified Technician

The SCT certification level is aimed at all the **professional VOIP resellers** and **integrators** who mainly work on VOIP projects and deploy and install phones + PBX systems on a daily basis.

### SCT - Deskphones

In this Learning Plan, you will gain knowledge about:

**i** **SCT - Deskphone**

- [SPT](#) - Product training
- Network - Basic
- SIP - Basics
- VoIP - Basics
- Deskphone: Connecting
- Deskphone: Troubleshooting

The order you visit and pass the courses does not really matter. Just start with the one you are most interested in. Once you have passed all the required courses and gained the badges, you will automatically receive your certification.

### SCT - DECT

The SCT - DECT certification courses will give the course participants profound knowledge in the area of DECT technology, measurements and site surveys to plan and successfully install DECT multicell solutions, and configure and troubleshoot the system.

The learning plan consists of courses about:

### SCT - DECT

- [SPT](#) - Product training
- Network - Basic
- SIP - Basics
- VoIP - Basics
- DECT: Basics
- DECT: Troubleshooting

 The *SIP Basics* and *Network Basics* courses are the same as the ones from the Deskphone learning path.

## Partner Informations

 The SCT certification is the required level for partners to obtain the **SILVER Partner Status** for their company.

## Overview over all achievable Badges

Certification	Needed Badges	Achievable Partner Status
