

How can I register the A190 headset on an M-Series base station

1. Set up an extension for the headset on the base station and put the base station into registration mode for handsets. Please refer to the base station manual on how to do it. The headset's IPEI number is on the box label.

Note: To be able to register a headset, you must set the AC code on the M900 **Extensions** page to 0000.

2. Press the CALL key and the two VOLUME keys simultaneously for more than 5 seconds to put the headset into registration mode, as indicated by short blue flashes and the voice prompt announcing "registering."
3. If the headset has been registered, the voice prompt announces "headset subscribed," and the headset has been added to the extensions page (Fig. 1). It can now receive calls at the assigned extension number.

Add extension

	Idx	IPEI	Handset State	Handset Type FW Info	FWU Progress		VoIP Idx	Extension	Display Name	Se
<input type="checkbox"/>	1	0328	Enabled	M90 450.11	Off	<input type="checkbox"/>	1	100	Demuser	
<input type="checkbox"/>	2	02E6	Present@RPN00	8930g 410.5	Off	<input type="checkbox"/>	2	101	A190
